

## Greenest Challenge Day 10

- We went to Lollipup for boba tea and set a timer for 10 minutes to see how many plastic straws people used and discarded.

Turning Green I went to Lollipup (a boba tea shop) to see how many people used plastic straws and discarded it for 10 minutes. I sat at the tables in the shop and saw about 20 straws pass by in 10 minutes. All of the plastic straws had ended up in the trash. This is a prime example of how straws are ending up in our oceans and polluting the water and harming our sea life. We use 500 million plastic straws everyday in the U.S. and at this rate, by 2050 there will be more plastic than fish in the ocean. If we don't do something about these plastic straws soon, we will live in a world where plastic is floating around everywhere in the oceans. Please, join the movement and accept the #stopsucking challenge by going to this link <https://stopsucking.strawlessocean.org/ob1rbvu> and creating a challenge URL, too!
