

DAY 17

SOIL

Day 17 – SOIL – Greenest

Mel and Sophie

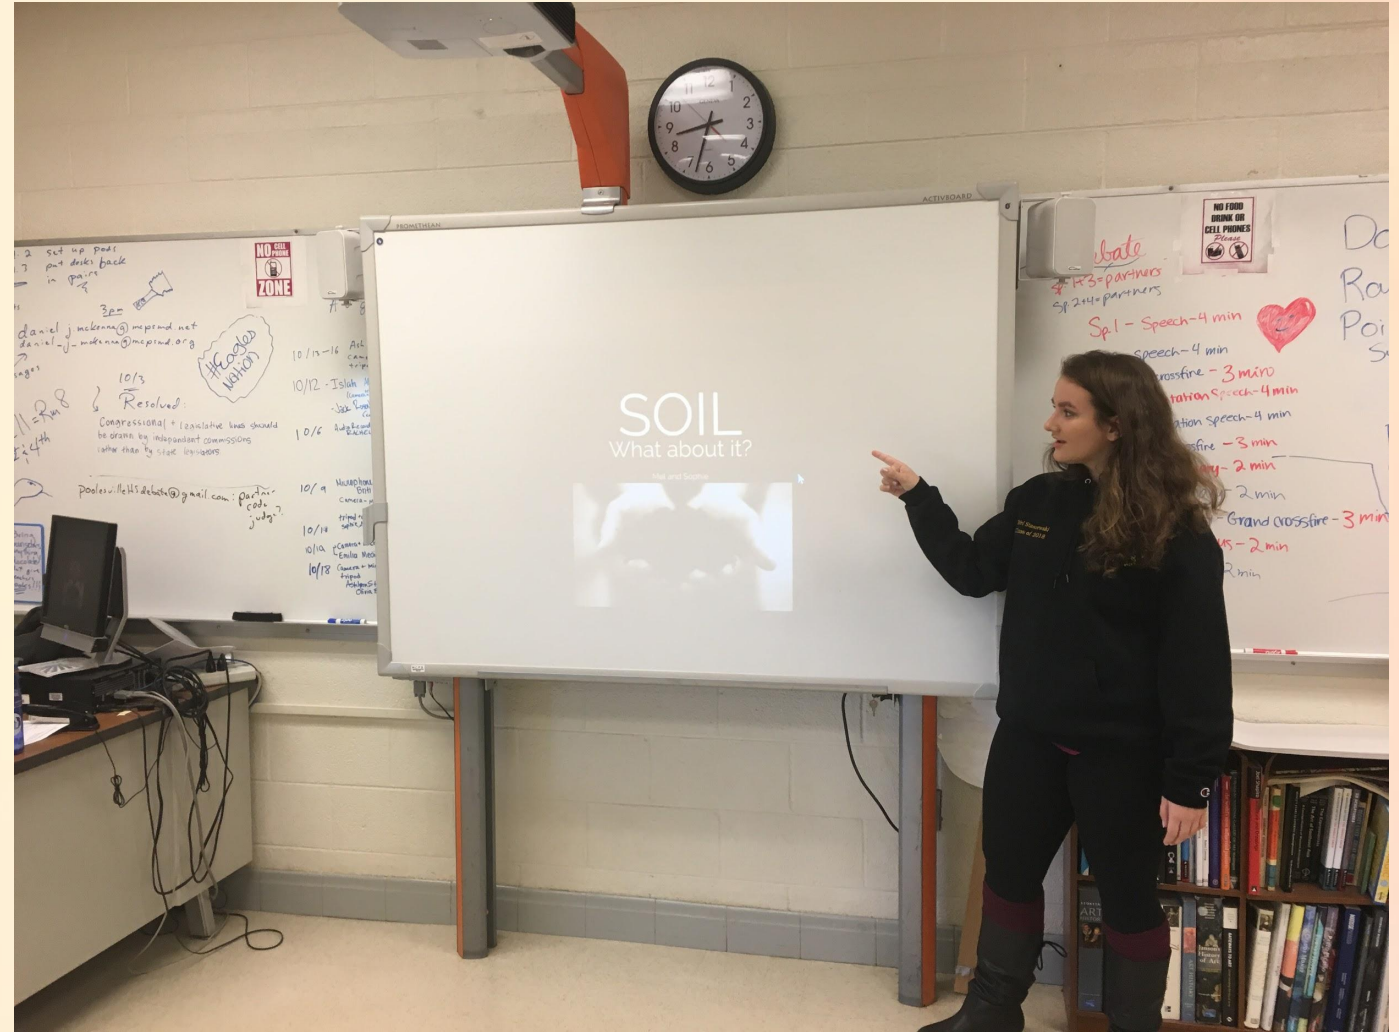

Team EMJS

Poolesville High School

melanie.staszewski@yahoo.com

Presenting!

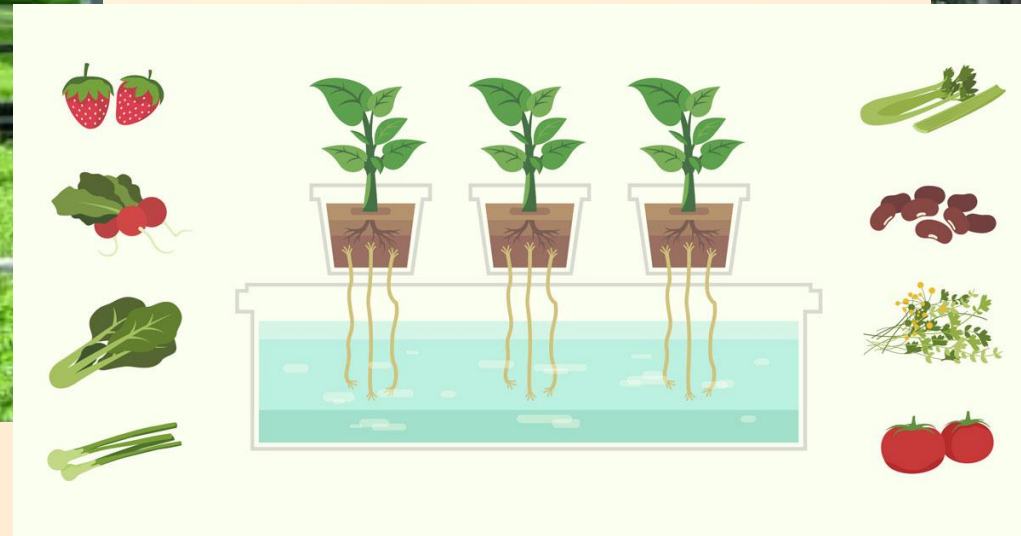

Being a teacher is a new experience, but it feels good to put myself out into the world with the knowledge I have gained!

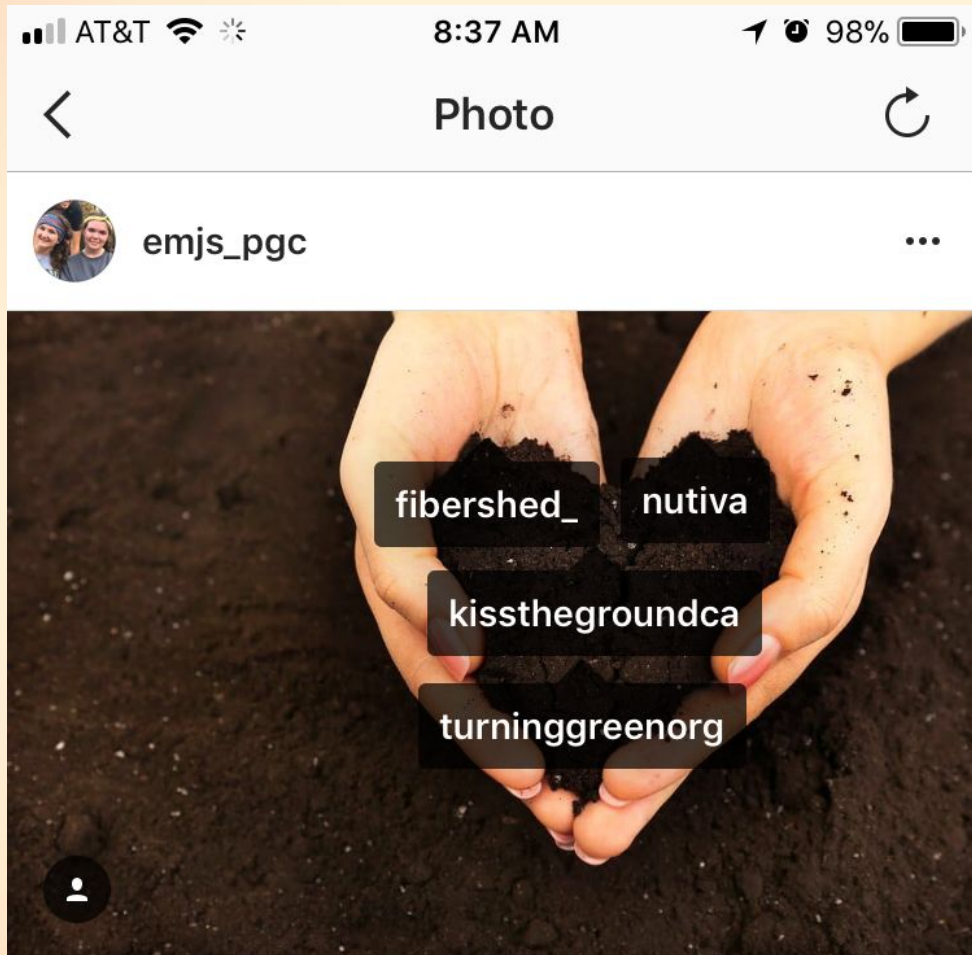

One Important Question

“What alternatives do we have if soil ran out?”

HYDROPONICS

Social Media Post

emjs_pgc Day 17 of #PGC2017 taught us a very valuable lesson. Soil is no joke. Without it, life cannot go on. We have to love our soil. Things like #afforestation - putting carbon back into #soil - are crucial to the survival of agriculture and life as we know it. Learn to #kisstheground and love what your Mother Earth gave you: soil. 🌍🌍🌍
