REFLECTION

Basically after I utilized the product on the toilet it spelled nice and different from the conventional cleaning products our family utilizes for the job. Conventional cleaning products contain bleach, and in my opinion, the smell it produces is quite strong. Therefore I was happy with the results that vinegar brought to the table. At first I was a bit reluctant because I didn't know what to expect, but I'm glad I tried this alternative out because if I think about it, the cleaning product itself was cheap, an approximate of \$3.00 was spent on both. In addition, I can utilize this for as long as I want. Hopefully the information was helpful, since this product is eco friendly.
