

Team Name: Sustainable Urban Pioneers

Name: Lauren Kim, Yale University
Jinno Vicencio, Orange Coast College

Email Address: lkim97@gmail.com

Username: lkim97

For our greenest challenge, we did a two part project. First of all, we have a video of Jinno singing a version of Bruno Mars "Treasure" that we made. We discuss the benefits of choosing organic foods. The next part is an infographic that compares the benefits of organic food vs. conventional food. We had a lot of fun making these two things. We hope you enjoy!

Treasure

LAUREN KIM & JINNO VICENCIO, SUSTAINABLE URBAN PIONEERS
PGC 2017, DAY 6

[Verse 1]

Give me all, give me all, give me all your attention baby
I got to tell you a little something about your fruits
They're wonderful, flawless, ooh they're a tasty lady
But you walk around here with conventional fruits

[Bridge]

Oh whoa, I know that you don't know it, but they're not so fine,
(not so fine)
Oh whoa, Oh girl I'm gonna show you and you'll change your mind
(change your mind)

[Chorus]

CONVENTIONAL, they are not so great
They got pesticides for days
You know they can deplete soil quality
They also affect the honey bees
Nutrients can also be a-lot-less

[Verse 2]

Chemicals, chemicals, chemicals all in those foods
A girl like you should never eat those fruits
Avoid all the codes that start with 4
Cuz those conventional fruits hurt planet Earth too

[Middle 8]

Go eat organic, go eat organic
Go eat organic, yeah, it's better for Earth
Go eat organic, go eat organic
Go eat organic, yeah, it's better for Earth

[Chorus 2]

Organic that is what to eat
Sustainability can't be beat
You know you can help your health improve
By simply switching to these foods
So go out there and make a difference

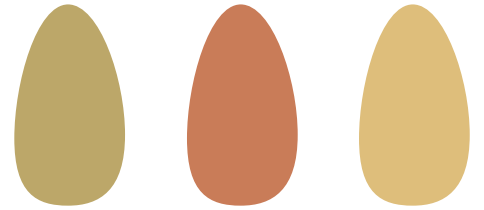

organic

VITAMIN & MINERAL RICH

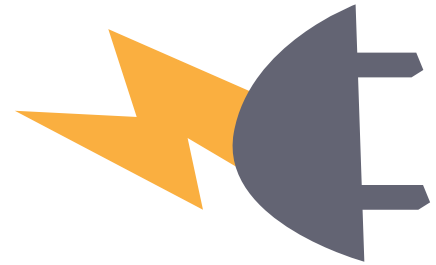

FRESHER PRODUCE

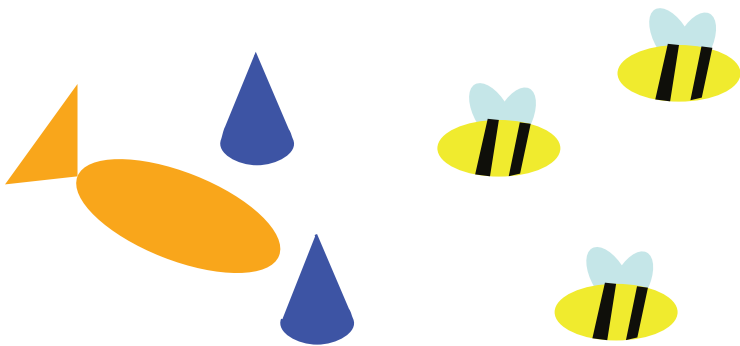

NO CHEMICALS OR PESTICIDES

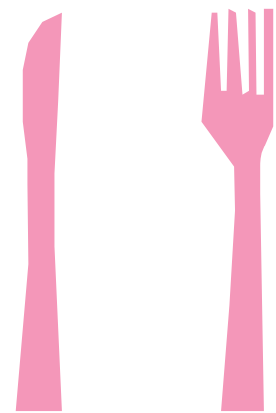

SAVES ENERGY

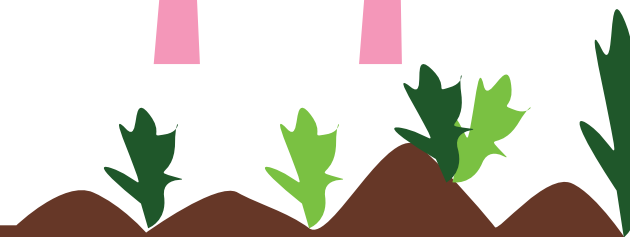

HELPS CONSERVE WILDLIFE

TASTES BETTER

IMPROVES SOIL HEALTH

CONVENTIONAL

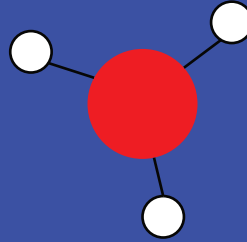

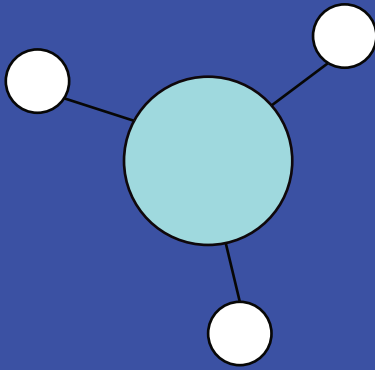

ENVIRONMENTAL PROBLEMS

WATER, AIR, AND LAND POLLUTION

HEALTH CONCERNS FROM PESTICIDE USE

HURTS SMALL SCALE FARMERS
