

PROJECT GREEN CHALLENGE
DAY 27 COMMITMENT GREENEST

Theory of Change: Strategies Example

THEORY OF CHANGE: Solving the South India's Water Crises		
STRATEGIES	TARGETS	OUTCOMES
<p>Understand who all the stakeholders are: Farmers, Industries, Households, etc.</p> <p>Are there science based and technical solutions that can be implemented or tested</p> <p>Identify "allies" in the state departments who are the "decision makers" and bring them into the planning process</p>	<p>Host stakeholder meetings with all needed community members</p> <p>Work with scientists and technical experts to test and prototype actionable solutions and prototypes</p> <p>Work with state agencies to make implementation possible</p>	<p>By 2030, we would have replenished the groundwater level in South India to back to pre industrial levels</p>
