

Eco Hero

Day 25 – Eco Hero

**Greenest**

The theme which we  
have chosen and found  
it making us feel  
resonating and like  
Eco-heroes  
Is Footprint.

We really had dived in  
deeper for the  
particular theme and

loved scribbling chalks  
on the boards.

We wanted to make  
something creative,  
impressive, convincing  
and worth depicting  
our story of footprint.

We were really running  
short of time but we  
managed to make the

blackboards look  
attractive and  
revealing, we did that  
stuff just within 25  
minutes.

We really appreciate  
the videos,  
infographics, TED TALK  
for the day and  
calculators like

ecological footprint  
calculator, topics like  
Earth overshoot day,  
how we can delay the  
overshoot day, etc

The picture below  
reflects the proof for  
the theme of footprint,  
first image indicates  
our presentation and

2<sup>nd</sup> one is ours holding  
chalk pieces, tired faces  
as we had to manage it  
all after finishing our  
lectures in the college.

- Apart from this day of footprint, we also loved the theme of biodiversity as we could represent each our works related to biodiversity on finer details and also we could do that because our curriculum

resonates  
somewhere around  
this topic and we  
three were good in  
biology, so we had  
recent access to the  
problems of  
biodiversity.

The various moves we could undertake to improve the current situation our

planet is facing is  
mentioned as below :

- Reduce fashion,  
reduce shopping
- No plastic
- Less use of fossil  
fuels
- Less carbon foot  
print
- Going vegan

- Take initiatives to save life and save our resources.
- Save water and avoid pollution.
- Work for every problem that is causing threat.

We want to implement these above mentioned

measures to make our generations live in a healthy and hygienic and less Costlier planet, not only market and shop, but enjoy recreating by adventuring, trekking, planting trees and

standing protesting for  
the planet.
