EARTH TO HUMANITY

My temperature is raised , my existence threatened
My cries for help increase but responses lessen .

“I’m ill ” sighs Earth as we witness yet another oil spill .

“I CANNOT BREATHE !” Exclaims Earth as deforestation continues

Project GREE... GREE... GREED!

You draw up wills and take all your longevity pills but fail to wonder where you’d all be if earth stood still ...

A shrill! ... then a deafening silence , listen if you will .

Planet Earth needs us

Oh for crying out loud humanity , kick up a fuss !
I insist , you must .

Change your ways , let us shift the dynamic

Project GREE... GREE... GREEN ! .
