Dear Mother,

From the bottom of my heart, I thank you. You've done so much for me and you shaped me into who I am today. Even though I may not show it, I appreciate how you stay awake every night to make sure I go to sleep. It's truly heartwarming when you offer to help me study or bring me snacks to make sure I eat. I hope you understand how much I love you and how much I'm glad you are always here for me. Every time I think I am ready to despair you always are there to lift me back up and encourage me to try again. You always cheer me up and you make sure I believe in myself. You've encouraged me to pursue and try many things that I have come to enjoy. I never would have discovered my love for swimming had you not emboldened me to try lessons and swim for fun when I was younger. I would have never known I have a love for music if you didn't motivate me to try out guitar and violin both of which interested me at the time but made me nervous to actually start.

Without your encouragement to keep striving to pursue my own interests, regardless of any adversity, such as when you empowered me to keep reading about dinosaurs and fossils when others told me not to. There are so many things in life that I would have missed out on had you not inspired me to keep trying new things. You always inspire me with your responsibility and bravery. Without your help, I would have never been able to accomplish many of the achievements I take pride in. I'm so thankful for you and all that you have done for me. Thank you, mom, for being so amazing, supportive, and incredible.

Sincerely,

Your loving daughter, Naann

My mother was very moved by my letter. She knew how thankful I was and I am so glad she was able to understand the emotions I was trying to convey through my letter.

Letters are something deeply personal to both my mother and I. There is something so touching about reading a letter out loud to someone you love. This experience helped me understand how truly grateful I was to my mother, and it connected us more.

**\_climatecrew** Today, we wrote letters of gratitude to people who are close to us. I chose to write to my mother, who is a very important figure in my life and whom I love dearly. Write your own letters of appreciation today to someone you care for and who have helped you! #pgc2020
