Day 6 Greener: Today I walked around with a clear plastic bag and put all the waste I generated in it. Since I had a club meeting today, I bought a box of cookies to give to club members. These cookies came in a large plastic container. My lunch, which I had gotten from my Mom's work cafeteria, also came in a similar container, though much smaller. I also generated waste from my daily energy drink, an airhead I ate, and a tissue. #PGC2023
