LET'S SAVE THE PLANET - LET'S SAVE THE PLANET - LET'S SAVE THE PLANET - LET'S SAVE THE PLANET - LET'S SAVE THE PLANET

Negative Impacts of Rock Dove

Columba livia is native to Europe and has been introduced worldwide as a food source, or for game. These pigeons prefer to live near human habitation, such as farmland and buildings. They cause considerable damage to buildings and monuments because of their corrosive droppings. They also pose a health hazard, since they are capable of transmitting a variety of diseases to humans and to domestic poultry and wildlife.

Management Strategies

Locally controlled by poisoning, shooting, trapping; erecting barriers to their roosting such as Nixalite Strips or “porcupine wire,” visual, audible, and sonic devices.

” - BE HUMAN NOT “INHUMAN” - BE HUMAN NOT “

Thank you
