One thing I learned was that by choosing fair trade certified products, you help to choose quality products, improved lives, and environmental protection. Also, Fair Trade is able to prioritize the poorest individuals, who have no other way of making a living income, and help them gain a fair wage based on their work and skill.

teamclover2023 Fair trade certified products can save lives! Not only do they improve product quality, but they also improve the lives of workers and protect the environment! Most products are very similar prices to conventional products, but with much more ethical and environmental production standards. Shop fair trade and join the movement! #pgc2023 #fairtrade @turninggreenorg @ftcampaigns @drbronner @oneplanetpaper @altereco\_foods
