## • DAILY TASK

**Brand Name:** Jack And Jones

### Materials used:

1. **Cotton (95%):** A natural fiber known for its breathability and comfort.
2. **Polyester:** A synthetic material often used for its durability and wrinkle resistance.
3. **Linen:** A natural fiber that is lightweight and breathable, ideal for warm weather.
4. **Blend Fabrics:** Many shirts are made from a blend of different materials to combine the best properties of each.

**Producer Of the Product:** Total 82.765 workers across 56 factories of JACK & JONES' manufacturers in **Bangladesh, Pakistan, China, India, and Myanmar.**

- ✚ My friends were surprised, and they asked me what happened why I was wearing inside out. Their Reaction was really shocking and funny. Then I told about the Project green challenge 2023 and the challenges that I completed yet. Luckily my friend **Mahmudur Rahaman Saad** he is also completing the project green challenge's challenges. So we both encourage our other friend's to do the pgc challenges and later on the class there was a presentation and Here I am Sharing some Still photos of the Day.

**Wearing My Shirt inside out for the day:**

The shirt I am wearing today.

Brand Name

Went to University

Inside out pose.

My friend was at laughing and asking me what happed?

I was explaining him about the Pgc2023 Challenge.

Later a presentation in class.
