FAR JAR

www.farjar.com

rang.o15

rang.o15 This is a promo I made with the 3d-program Blender. I 3-d modeled the plate, knife, cheese, wine, fork, and candle myself. I wanted to make it look like the delicious food was spewing out of one of the jars. Here is my elevator pitch:

Similar meal kit delivery companies ship tons of plastic and styrofoam every week, generating massive waste. My company will be different. We will deliver delicious, nutritious meals in reusable glass jars that customers return for cleaning and reuse. This closes the loop on single-use packaging.

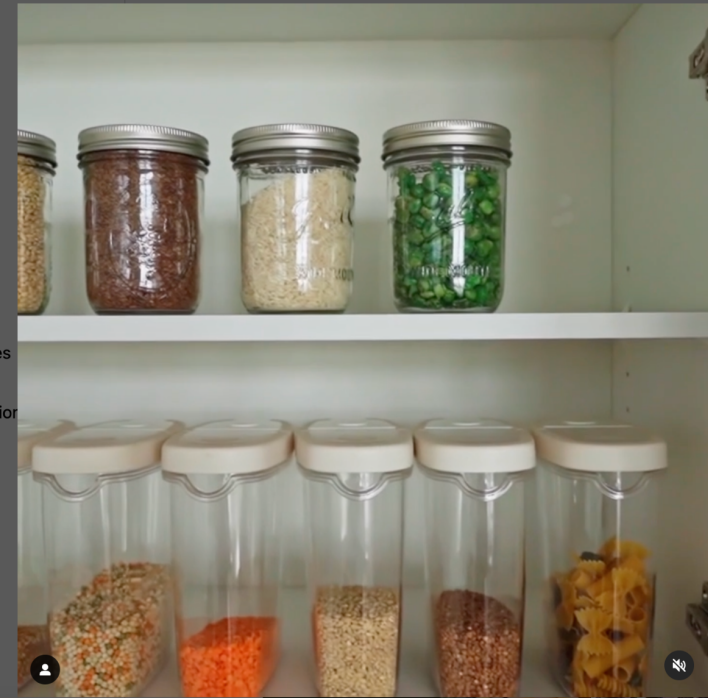

Our menus will feature locally-sourced, organic ingredients to reduce emissions from transport and support small farms. Vegetarian and plant-based options will be plentiful to lower our carbon footprint.

We'll operate out of a LEED-certified facility powered by renewable energy. Employees will receive fair pay, generous benefits, and eco-conscious training programs.

One percent of every sale will fund regenerative agriculture projects, planting trees, and protecting pollinators. Our business will eliminate waste, nourish the community, and heal the planet.

For this one, I did two instagram posts. For the promo, I had fun creating a promotional image for my Far Jar company idea.

Hi, I'm Aiden Son] and I want to introduce you to my new sustainable company, Far Jar.

Similar meal kit delivery companies ship tons of plastic and styrofoam every week, generating massive waste. My company will be different. We will deliver delicious, nutritious meals in reusable glass jars that customers return for cleaning and reuse. This closes the loop on single-use packaging.

Our menus will feature locally-sourced, organic ingredients to reduce emissions from transport and support small farms. Vegetarian and plant-based options will be plentiful to lower our carbon footprint.

We'll operate out of a LEED-certified facility powered by renewable energy. Employees will receive fair pay, generous benefits, and eco-conscious training programs.

One percent of every sale will fund regenerative agriculture projects, planting trees, and protecting pollinators. Our business will eliminate waste, nourish the community, and heal the planet.

The current food system is broken, but together we can fix it. Join us as we use business to drive real change. Learn more and sign up for updates at www.farjar.com
