ABOUT WEACT4EJ

WE ACT for Environmental Justice (WE ACT) is a prominent environmental justice organization based in the United States. Founded in 1988 and headquartered in Harlem, New York City, WE ACT's mission is to empower and engage low-income communities and communities of color to fight for environmental and social justice.

The organization works to promote policies and practices that reduce environmental disparities and promote sustainable and healthy living conditions for all. They often engage in efforts to ensure that historically disadvantaged communities have a voice in environmental decision-making processes and that their concerns are taken into account.

So follow this inspiring group to support their journey!!
