

**Name:** Stolting Shawn  
**Username:** shawnstolting  
**School:** Polytechnic College Suriname

**Environmental issue:**  
Plastic pollution in our oceans.

Campaign Name: "Coastal Cleanse: Beat Plastic Pollution"

The primary goal of the "Coastal Cleanse" campaign is to raise awareness and actively combat plastic pollution in our coastal communities. The focus is on involving local residents and community members to make a tangible difference in reducing plastic waste along the coastline.

**Coastal Cleanse:  
Beat Plastic  
Pollution  
Campaign**

The primary goal of the "Coastal Cleanse" campaign is to raise awareness and actively combat plastic pollution in our coastal communities.

## **Campaign Elements:**

1. Education and Awareness:
  - a. Engage through social media, webinars, and community events to inform people about the severity of plastic pollution and its impact on marine life.
  - b. Share inspiring stories of individuals and organizations working to combat plastic pollution.
2. Beach Cleanups:
  - a. Organize regular beach cleanup events in coastal communities to physically remove plastic waste from the environment.
  - b. Collaborate with local schools, environmental organizations, and businesses to make these events a success.
3. Plastic-Free Initiatives:
  - a. Encourage individuals to pledge to reduce single-use plastic consumption in their daily lives.
  - b. Work with local businesses to adopt plastic-free practices and promote sustainable alternatives.
4. Policy Advocacy:
  - a. Lobby for stricter regulations on plastic production and waste management.
  - b. Partner with policymakers to promote extended producer responsibility and better waste recycling systems.
5. Innovative Recycling:
  - a. Promote innovative recycling programs that transform collected ocean plastics into useful products.
  - b. Collaborate with artists and designers to create awareness campaigns around upcycling.
6. Partnerships:
  - a. Establish partnerships with local and global environmental organizations, businesses, and governments to maximize impact.

Subject: Urgent Action Needed to Address Plastic Pollution in Our Coastal Communities

Dear Ministerie van Openbare Werken,

I am writing to you as a concerned student/resident of our community and an advocate for environmental preservation. Over the past few weeks, my attention has been captivated by the escalating issue of plastic pollution in our coastal communities, which is causing significant harm to both our environment and the people who rely on it.

**Who Does the Issue Impact?**

The issue of plastic pollution profoundly affects the residents of our coastal areas, including fishermen, local businesses, and the wider community. These populations are vital to our local economy and cultural heritage. As leaders of our community, I believe this matter is of paramount importance to you, as it threatens the well-being and livelihoods of your constituents.

**Objective and Relevance:**

Our primary objective is to launch the "Coastal Cleanse: Beat Plastic Pollution" campaign, with a focus on reducing plastic waste along our coastlines. We aim to protect marine life, preserve the natural beauty of our beaches, and ensure the sustainability of our coastal communities.

This endeavor is relevant and effective in several ways:

- **Economic Impact:** The campaign will safeguard the livelihoods of local fishermen and small businesses, ensuring the long-term prosperity of our community.
- **Environmental Stewardship:** By reducing plastic pollution, we can protect our coastal ecosystems and the species that inhabit them, contributing to a healthier environment.
- **Civic Engagement:** Involving the community in this campaign fosters a sense of ownership and environmental responsibility, making our community more resilient and sustainable.
- **Creating Opportunities for Involvement.**

To address this issue effectively, we intend to:

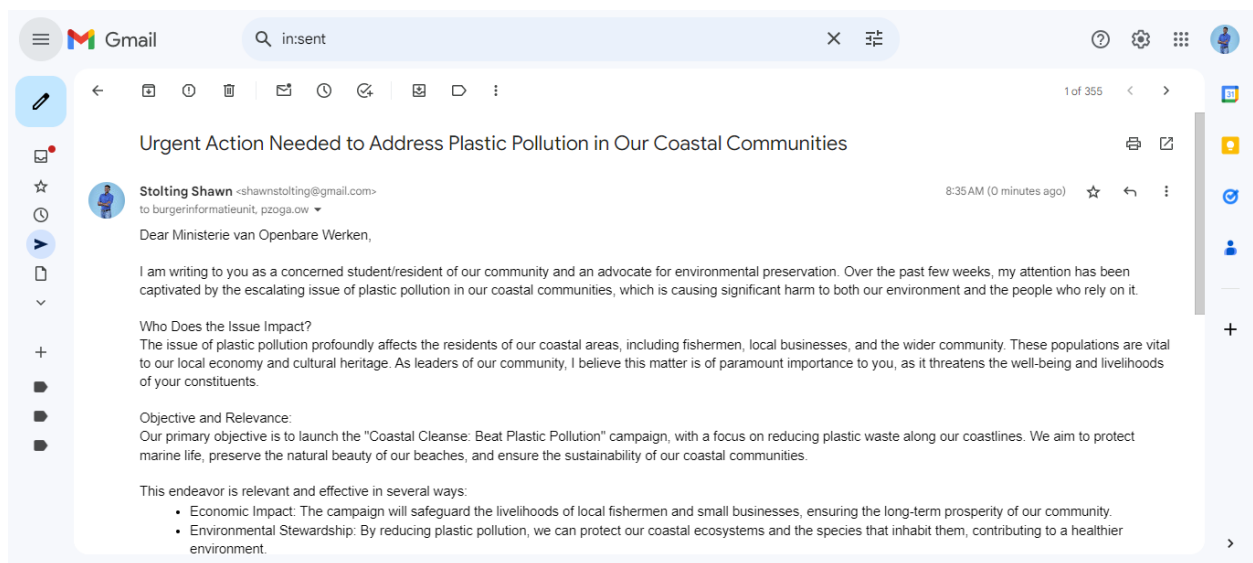

- Organize Cleanup Initiatives: Mobilize community members for beach cleanup events and establish a rewards program to encourage consistent participation.
- Raise Awareness: Launch a compelling social media campaign and distribute a community newsletter to keep residents informed about the campaign's progress.
- Collaborate: Build partnerships with local schools, environmental clubs, and neighborhood associations to pool resources and engage more individuals.

I believe that grassroots activism begins with individual action and grows into a powerful movement. The success of this campaign depends on your support, encouragement, and guidance. By endorsing our initiative, you have the opportunity to lead our community toward a cleaner, more sustainable future.

I humbly request the opportunity to discuss this matter further and explore ways in which we can collaborate to combat plastic pollution in our coastal communities. Your support and involvement will undoubtedly inspire others to join our cause, making a significant difference in our environment and community.

Thank you for your time and consideration. I look forward to the possibility of working together to create a brighter and cleaner future for our coastal communities.

Sincerely,  
Stolting Shawn

URGENT ACTION NEEDED TO ADDRESS PLASTIC POLLUTION IN  
OUR COASTAL COMMUNITIES

Dear Ministerie van Openbare Werken,

I am a dedicated advocate for environmental preservation, and I'm deeply concerned about the escalating issue of plastic pollution in our coastal communities. This issue has a profound impact on our coastal residents, including fishermen, local businesses, and our entire community. Their well-being and livelihoods are at stake.

Our primary objective is to launch the "Coastal Cleanse: Beat Plastic Pollution" campaign, with a focus on reducing plastic waste along our coastlines. We aim to protect marine life, preserve the natural beauty of our beaches, and ensure the sustainability of our coastal communities. This endeavor is relevant and effective for various reasons:

1. Economic Impact: The campaign will safeguard the livelihoods of local fishermen and small businesses, ensuring the long-term prosperity of our community.
2. Environmental Stewardship: By reducing plastic pollution, we can protect our coastal ecosystems and the species that inhabit them, contributing to a healthier environment.
3. Civic Engagement: Involving the community in this campaign fosters a sense of ownership and environmental responsibility, making our community more resilient and sustainable.
