Who are we ??

Catch Foundation is an Ahmedabad based environmental NGO founded in 2014. The team comprises of Senior Citizens, Homemakers, Entrepreneurs, Army Officers & Govt. Officials. The NGO's focus is on creating awareness of cleanliness in the surrounding areas, segregation of dry and wet waste at source, increasing the green landscape in the city, and encouraging people not to use single-use plastic.

Vision

A clean and green environment which leads to a better society and a nation at large by creating movements self-directed by the citizens.

Mission

To become a catalyst of change by creating awareness to change habits for improving the surroundings resulting in a clean and safe place to live and work for future generations.

We want to have a positive impact on the planet

Our Journey

Catch Foundation as one of the Best NGO in Ahmedabad has involved Senior Citizens who can add value through their experience, homemakers by giving them new perspective besides household activities, entrepreneurs and professionals who understand their responsibilities towards the nation. Army Officers also devote their time for the noble cause initiated by the foundation.

Today there are more than 250 societies and 15000 families who are associated with the Catch Foundation. The addition of the volunteers and societies is done through the various door to door mass awareness programs on cleanliness, littering, lessen the usage of plastic, solid waste management, and plantation.

SAY NO TO SINGLE USE PLASTIC

Spreading awareness in Ahmedabad and Vadnagar. Distributed 11000 smart cloth bags to encourage the use of cloth bags.

Plantation + Maintenance = Plantance

We have planted in Chandkheda, Motera, New CG Road & IOC Road. We are regularly monitoring & maintaining it, which has resulted in a high survival ratio from 60% to >90% and at large increasing the green cover of Ahmedabad.

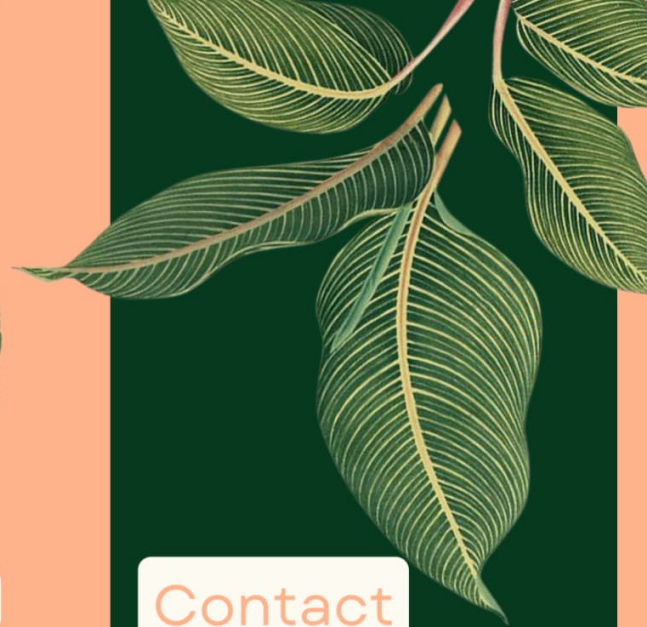

Smart Family

Our Volunteers encourage families to become S.M.A.R.T. by segregating the waste properly. We have added 15000 Smart Families by distributing Blue & Green Dustbins for this cause through our awareness programs.

Upcoming Events

Catch Foundation has launched Swachhta Sangram 2 where our volunteers would meet Society Chairmen for their permission to collect old newspapers and make paper bags. These Paper bags would be distributed to Vegetable Vendors in Local Markets to spread the message "Say No To Use Single-Use Plastic".
