

THE GARDEN PROGRAM

CREATING A CONNECTION
BETWEEN STUDENTS AND
THE ENVIRONMENT

EMPOWERING K-12
ORLANDO, FLORIDA

🌱 Discover the Magic of Nature with The Garden Program! 🌿

At the Garden Program, we're on a mission to bridge the gap between students and our beautiful environment. 🌿 Our goal is simple: empower K-12th grade students in Orlando to connect with nature through exciting, hands-on lessons and activities that ignite a passion for urban gardening and sustainability.

🌱 In our after-school and summer programs, students embark on a journey where they witness the growth of their own food, from planting to harvesting fresh produce right on-site. 🥕🍎 As they dig into the world of gardening, they also explore the wonders of the natural environment that surrounds them. 🌍

From vermicomposting to recycling, understanding the vital role of pollinators, making magic with hydroponic farming, and learning to reuse food scraps, our students delve into a world of sustainable knowledge. 🌱🌍

🌟 We're proud to partner with Green Works Orlando, an organization committed to transforming our city into one of the most eco-friendly and vibrant in the nation. We firmly believe that education is the key to building a greener, healthier tomorrow. 🏙️❤️

Come, be a part of our journey! Check out The Garden Program, and let's sow the seeds of a brighter, more sustainable future together. 🌱🌟 #TheGardenProgram #GreenOrlando #SustainableEducation #NatureExploration

The Garden
The Garden is a youth environmental education initiative that strives to get students outdoors and develop connections with nature through the act of urban farming.
