[Project Green Challenge #PGC2023 Day 25: ENERGY: How can we drive the shift fossil fuels to renewables?]

 Greener Edition:

Powering Progress: Ridwan Kamil's Green Revolution in West Java!  

Mungkin Bapak @ridwankamil mikir, ini apa seh tetiba ada yang mentioned? Okay Pak, kenalin aku Sam, aktivis lingkungan dari Makassar, Sulawesi Selatan. Yups, kota di mana Bapak juga turut menginisiasi dan membangun Masjid 99 Kubah! Well, saya spotlight profil + kerja-kerja nyata Bapak related to environment and renewable energy! Thanks for inspiring us, Pak! 🙌

In his esteemed role as the Chairman of ADPMET, he champions the cause of renewable energy and advocates for Indonesia's Net Zero Emissions objective with unparalleled dedication. His strategic initiatives, including the reduction of fossil fuel-based electricity and gasoline-driven transport, showcase his vision for a sustainable West Java. Under his discerning leadership, the province is transforming into a beacon of eco-consciousness and environmental excellence. It is our honor to support Governor Kamil's efforts, aligning our commitment with his, and collectively striving for a greener, cleaner, and more sustainable West Java.

Ridwan Kamil

Ridwan Kamil is an Indonesian architect and politician who served as the Governor of West Java, one of Indonesia's most populous provinces. He held this position from 2013 to 2018. During his tenure, he made significant efforts to improve the environment and promote sustainable development in the province.

As an architect, Kamil has a strong background in urban planning and design, which he utilized to implement various environmental initiatives. He focused on issues such as waste management, green spaces, and urban mobility to create a more sustainable and eco-friendly environment in West Java. Kamil's initiatives aimed to address the challenges posed by rapid urbanization and population growth in the region.

Efforts and Achievements

Environment and renewable energy related issues

Ridwan Kamil inaugurated the Environmental Laboratory Center building (SPTD) Labokoran Engkuang Ridge in Cileunyi, West Java. The inauguration of the building aims to support the environmental, climate, waste, and support the Clean Air program. It also serves as the foundation for environmental law enforcement.

Ridwan Kamil received the Niwasia Terra Award, which is given regional leaders for their leadership in formulating and implementing policies and programs in line with the principles of sustainable development methodology to improve the quality of the environment in their respective regions.

Ridwan Kamil is in his role as the Chairman of the Association of Regions Producing Oil and Renewable Energy (ADPMRE), visited the United States as part of efforts to achieve Indonesia's Net Zero Emissions by 2060. According to him, Indonesia must intensify efforts to reduce electricity consumption from local banks, including decreasing the use of gasoline-based transportation tools.

Dear Ridwan Kamil,

I hope this letter finds you in good health and high spirits. I am writing to express my sincere appreciation for your dedicated efforts in promoting sustainable energy initiatives and addressing environmental concerns in West Java. Your recent activities, especially your role as the Chairman of the Association of Regions Producing Oil and Renewable Energy (ADPMRE) and your visit to the United States, underscore your commitment to steering Indonesia towards a greener and more sustainable future. Your advocacy for renewable energy sources and your proactive approach to reducing Indonesia's carbon footprint, as evidenced by your push for the reduction in fossil fuel-based electricity and gasoline-based transportation fuels, are inspiring. Your efforts are not only commendable but also essential in the global fight against climate change.

I am particularly impressed by your focus on achieving Indonesia's Net Zero Emissions goal by 2060. Your strategic initiatives align perfectly with the urgent need for collective action in the face of the climate crisis. By emphasizing sustainable practices and encouraging the adoption of renewable energy, you are setting a remarkable example for other regions to follow. I am aware of the challenges associated with such transformative changes, but your vision and leadership are instrumental in overcoming these hurdles. Your determination to create a sustainable, eco-friendly environment is not just beneficial for the current generation but also lays the foundation for a better, more prosperous future for generations to come.

Once again, thank you for your outstanding dedication to environmental conservation and sustainable energy development. I look forward to witnessing the positive changes that your initiatives will bring to Indonesia.

Warm regards,
Samintang
