"In the Change" (song)

It starts with one, your voice, don't let it fade,

In a world where choices are made.

Keep in mind, your vote can define,

A future where our planet will shine.

Time is ticking, a valuable thing, Count down to change,

let our actions sing.

Watch the world, as it spins and turns,

Clock ticks life away, as the fire within burns.

.....

I tried so hard and we'll go far,

In the end, it's the change that matters.

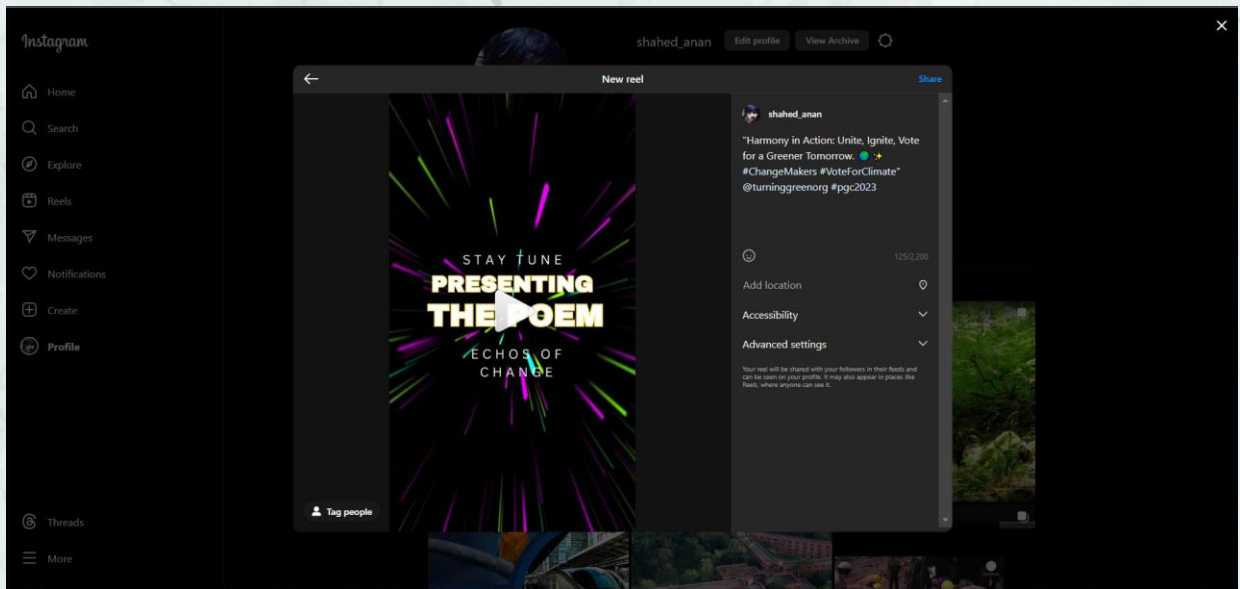

Hold on tight, let our voices be heard, Vote for the Earth,

let your actions be stirred.
