**Don't forget to vote for Team  
Silkly Woven !!**

CLIMATE  
CHANGE

save the earth!  
Vote for us !!

Licypriya Kangujam is a 10-year-old climate activist and sustainability influencer in India who has already made headlines. She used social media to question authorities and bring attention to the need for climate action. Born in Manipur, she had to move with her family to Bhubaneswar, Odisha. She witnessed the devastation caused by Cyclone Titli and Fani, back to back in 2018 and 2019. Again, after moving to Noida, she faced the effects of Delhi's pollution. All this pushed this child to become an environmental activist. Licypriya attended the COP26 summit, where she met UN Chief Antonio Guterres. Having been featured in multiple lists and inspired millions of teenagers, she is truly the voice of the generation.

**LICYPRIYA**

*Youngest climate activists !!*

# INSPIRATION FOR ALL THE CLIMATE WARRIORS THROUGHOUT THE WORLD :- LICIPRIYA

Licipriya inspires our determination for Climate Change tremendously. She is the youngest one in India and still her dedication is cause for climate awareness in the whole nation. Being a child she could have easily ignored the problems of our nation but she chose to stand up against those who are responsible for this prevailing climate crisis.

And responsible behaviour towards Environment and Nation makes us question ourselves that what we are doing for our nation ???
