

Day 1 – Greener

Les gusta a [jimenafgarcia](#) y otras personas

[roomies_205](#) ¡Hola!, we are Jimena, Eduardo and Alberto from Mexico City and we find ourselves filled with excitement for this month's challenges because it represent a sharing space, to grow and improve our lifes and hopefully figure out what to do to help somehow from our corner, if possible even better to encourage our community to do the same. GPC truly is a great opportunity to increase our knowledge on the subject, be well informed and get insipred to rise from adversity and reflect about the impact our habits in the role we can play in society, no matter how small, no matter how loud, no matter how strong, as long as its rising awareness and leading to a righteous life, it's worth trying, cause the damage society has done to nature is the damage has done on itself, so we need to save ourselves by saving the unbalanced and decaying environment we've taken a toll on for too long
