🌻 Hello, we are Team Dandy Lions! 🦁

We are participating in Project Green Challenge because it's more than just a competition: it's a chance to turn passion into purpose. Through PGC, we get to take what we learn in classrooms, clubs, and leadership roles and apply it to real action that impacts both our school and our wider community. Every challenge pushes us to think creatively, collaborate like we do in service projects, and step up as leaders for a cause bigger than ourselves. What excites us most is that we're joining a global movement of students who believe that our voices and choices can spark real change. By taking on PGC, we're not only learning about sustainability, but also building long-lasting initiatives that will keep shaping our community long after the challenge ends.
