"One World, One Fight."

Our chosen SDG is #13: Climate Action, because the climate crisis is global, urgent, and personal to every one of us. Through Action For World, we are committed to mobilizing youth and driving real solutions.

This is my why. This is our fight. This is where change begins. 💚

THE POEM

"One World, One Fight"

The Earth is heating, the seasons shift,
Glaciers melt, and coastlines drift.
From forests burning to oceans that rise,
The signs are clear, before our eyes.

But I believe in the power of one,
A spark, a vision, a voice begun.
One action grows, then multiplies,
A wave of change across the skies.

My chosen goal is SDG Thirteen
Climate Action, bold and seen.
At *Action For World*, we stand as youth,
Fighting for justice, for science, for truth.

This is my why, my reason to be,
To join this challenge, to rise, to see.
Because our planet cannot wait
Together, we choose a greener fate.
