### Why July 24th 2025 is so important?

01

Earth Overshoot Day marks the date when humanity's demand for ecological resources and services in a given year exceeds what Earth can regenerate in that year.  
In this year the date was calculated at July 24th.

02

**What can we do to #MoveTheDate?**  
The action: FOOD.

03

**How can Plant-based meals in school canteens can be a brilliant idea?**  
The introduction of weekly plant-based meals in school bring multiples benefits at improving nutrition and health for students and raise awareness about sustainable eating, also this can lower the school's food footprint.

04

**What changes can we make?**  
1. Connect with local organic food producers and suppliers  
2. Create sustainable plant-based menus  
3. Use sustainable alternatives for meal distribution

roomies\_205 One meal, one change, one future 🌍. We choose plant-based meals to #MoveTheDate and preserve our planet. #PGC2025 @turninggreenorg
