

Team name: No.1

User name: Becky Liu

School: Hamden Hall Country Day School.

Outcome:

Create a Hamden Student Recycling program that gathers all the leaders of conservation clubs in different schools. Each leader can recycle/recruit members to recycle their campus. Ultimately, we can form a recycling network and report the impact of the trash being recycled. I want to have at least 5 school leaders collaborate with me.

Targets:

-Communication skills: Be able to show my ambition to other leaders, school teachers, program directors, and be able to tell them my plan clearly.

-Organization skills: Planning ahead on what I need to do to achieve the goals. Organize the materials, posters, petitions etc.

-Creativity: Make posters, instagram posts that attract people's attention.

-Consistency: Recycle in a weekly basis even though sometimes life gets pretty busy.

Strategies:

Target 1: Contact the environmental club leaders from other schools and host small meetings through zoom; prepare the agenda for the online meeting; prepare a speech that shows the plans and the purpose of hosting a recycling activities

Target 2: Create reasonable timeline; break the bigger goals into smaller one and set the deadline for completing each goal; give plan B when facing difficulties

Target 3: Practice poster making through canvas; post the campaign poster through instagram, facebook etc.

Target 4: Be productive when doing schoolwork; save certain time block for recycling

Reflection on overall chart:

- Do your *strategies* clearly connect to your *targets*?

Yes. My strategies tie tightly to the targets. Each strategy helps me to practice the skills that achieve the targets.

- Do your *targets* lead naturally toward your *outcome*?

Yes. When I write down the target, I break the outcome into small, reasonable steps that are manageable in daily life.

- What still feels unclear or needs more detail?

There are some challenges that need to be addressed. For example, I need to have conversations with the environmental teachers and ask them how I should contact the student leaders in other schools; I need to communicate with people who have hosted successful panels before so that I have a basic understanding about how to persuade other leaders to join my plans; I need to communicate with my AP language teachers about how to write a persuasive speech etc. Communication is the biggest challenge that still needs to be broken down into small steps.

WHAT DO WE WANT TO ACHIEVE?

Create a Hamden Student Recycling program that gathers all the leaders of conservation clubs in different schools. Each leader can recycle/recruit members to recycle their campus.

Ultimately, we can form **a recycling network** and report the impact of the trash being recycled.

WHAT SKILLS DO I NEED TO ACHIEVE THE GOAL

- **Communication skills:** Be able to show my ambition to other leaders, school teachers, program directors, and be able to tell them my plan clearly.
- **Organization skills:** Planning ahead on what I need to do to achieve the goals. Organize the materials, posters, petitions etc.
- **Creativity:** Make posters, instagram posts that attract people's attention.
- **Consistency:** Recycle in a weekly basis even though sometimes life gets pretty busy.

SPECIFIC ACTIONS

TARGET 1: CONTACT THE ENVIRONMENTAL CLUB LEADERS FROM OTHER SCHOOLS AND HOST SMALL MEETINGS THROUGH ZOOM; PREPARE THE AGENDA FOR THE ONLINE MEETING; PREPARE A SPEECH THAT SHOWS THE PLANS AND THE PURPOSE OF HOSTING A RECYCLING ACTIVITIES

TARGET 2: CREATE REASONABLE TIMELINE; BREAK THE BIGGER GOALS INTO SMALLER ONE AND SET THE DEADLINE FOR COMPLETING EACH GOAL; GIVE PLAN B WHEN FACING DIFFICULTIES

TARGET 3: PRACTICE POSTER MAKING THROUGH CANVAS; POST THE CAMPAIGN POSTER THROUGH INSTAGRAM, FACEBOOK ETC.

TARGET 4: BE PRODUCTIVE WHEN DOING SCHOOLWORK; SAVE CERTAIN TIME BLOCK FOR RECYCLING

**TOGETHER WE CAN
MAKE A DIFFERENCE**
